

Symposium on Energy Efficiency in Water and Wastewater Infrastructure

AWWAIndia organised a symposium on Energy Efficiency in Water & Wastewater Infrastructure on 10th February 2017 at the Rodas – An Ecotel Hotel, Mumbai. The event with the theme WE2 – Together we can make a difference, is an initiative of AWWAIndia to help define and develop standards on energy efficiency of water and wastewater sector in India.

The event saw some of the eminent speakers from the water industry like Saikat Mitra, Dr. Frank Loge and Dr. Pradeep Kumar, Dr. Ajay Chandak, Mr. Vishwas Naware and David Thommana who shared their insights on topics like Energy Audits, Energy Efficiency in Water & Wastewater sector and Energy Efficiency in Pumping System among others. There was also a Panel Discussion on Energy Efficiency Road Map.

This is an initiative of AWWAIndia to bring all stakeholders such as manufacturers, ESCO (Energy Services Companies) and financial institutions, energy consultants, utilities, research & academics, and the Government on a platform for consultative brainstorming to realize energy efficiency as a strategic goal towards achieving Total Water Solution.
